**CFA® PROFESSIONAL QUALIFICATION: CONSISTENT EFFORT AND MOTIVATION IS THE KEY TO SUCCESS.**

## **CFA® Level 1 Exam Review**

***“Get it right the first time ...”***

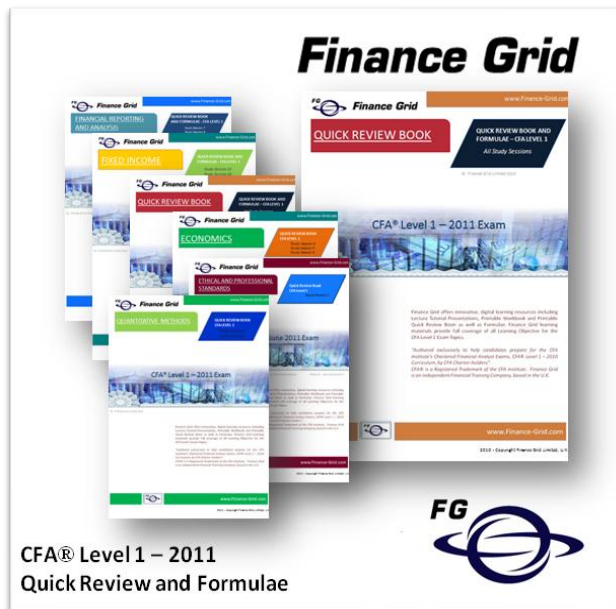

### **CUMMULATIVE LEARNING TECHNIQUE**

A cumulative learning technique should be adopted where a study session once completed is revised and practiced with each subsequent study session – this results in rigorous practice of material already learnt, keeps the learning current and builds confidence in the mastery of the material.

- PORTFOLIO MANAGEMENT
- EQUITY INVESTMENTS
- FIXED INCOME
- DERIVATIVES
- ALTERNATIVE INVESTMENTS

## We help you **PASS** the **FIRST TIME**

Study materials offered by Finance Grid consist of interactive PowerPoint presentations, allowing students to study at their own pace. Students can 'Play', 'Pause' and 'Stop' the study presentations to match their individual pace and schedule. Each slide transition has been placed to create the sequencing of ideas to help students learn the first time. Computational problems have been solved on a step-by-step basis and the accompanying text is in-depth to help students develop a linkage between the central idea, problem and its solution.

The PowerPoint presentations are accompanied by 'Quick Review' material so that the details learnt are presented in a condensed format to help achieve the cumulative learning strategy. Finance Grid has combined the study materials (PowerPoint and Quick Review PDF) into modules rather than study sessions and each module is available for sale separately.

## THE CFA® DESIGNATION

The CFA® designation is a highly visible and valuable credential in financial services with global recognition guaranteeing the opportunity for career advancement in investment management with several options. According to the annual report of the CFA Institute for 2010, there are 102,800 members of the CFA Institute and more than 200,700 individuals enrolled for the CFA program in 2010, which is more than double the number of registrations over 2009.

# Flexibility of purchase to match your needs

## FINANCE GRID OFFERS STUDY MODULES FOR SALE SEPRATELY – TRY A MODULE FOR AS LOW AS £19.99

There is no secret formula or recipe for success in the CFA exams. It only takes motivation and commitment on a sustained basis and realistic time planning. You must allocate a minimum of 350 hours of study in a period of 6 months for each level which translates to about 14-15 hours of study per week. This is the minimum time commitment to prepare in order to pass the exam.

## STRUCTURE OF THE CFA PROGRAM

The CFA® study program is structured in three levels; Level I, Level II and Level III. Passing the three exams does not confer a CFA Charter to the candidate automatically. Requisite work experience and references from current charter holders are required to be granted a charter. Our unique digital learning products give you a competitive advantage which will fast-track your learning and help you achieve your goal of becoming a CFA Charter-holder.

Level I exam comprises 240 multiple choice questions, which are tested in two sessions (morning and afternoon) of 120 questions each during the day

Level II exam focuses on application of concepts learned in Level I with focus on asset valuation and investment analysis. The exam comprises 20 item sets ('mini-cases' or 'vignettes'). The exam is split in two sessions (morning and afternoon) with 10-item sets tested in each session during the day.

Level III exam builds on the knowledge gained in Level II and Level III with a focus on portfolio management and tests the ability of the candidate to synthesize and evaluate information. The structure of the Level III exam is similar to Level II with the exception of essays questions.
